

THOMPSON RE-ELECTED MAYOR OF CHICAGO

HAS 15,000 PLURALITY OVER ROBERT SWEITZER, DEMOCRATIC CANDIDATE

Maclay Hoyne, Independent, Poor Third—Contest One of the Most Exciting City Ever Witnessed—Wets Are Victorious by a Three to One Vote.

BULLETIN.

CHICAGO, April 2.—Complete unofficial vote for mayor gave:

Thompson, Republican	257,888
Sweitzer, Democrat	240,288
Hoyne, (Independent Democrat)	110,898
Thompson's plurality, 17,600.	

CHICAGO, April 1.—Mayor William Hale Thompson, Republican was re-elected today in one of the most exciting political struggles the city ever witnessed, the incomplete unofficial returns late tonight indicating that his plurality would be in the neighborhood of 15,000. His nearest opponent was Robert M. Sweitzer, Democrat, county clerk, whom the mayor defeated four years ago by a plurality of more than 147,000.

Much of the big vote which the mayor received four years ago but lost today went to State's Attorney Maclay Hoyne, a Democrat who ran as an independent by petition.

The election in which six candidates ran for mayor fell on an ideal day and the total vote cast, it was estimated, was about 700,000.

The city voted "wet" by a sweeping majority, the first time the question had been voted on in Chicago. The liquor adherents made a campaign based on the slogan, "Let Congress Hear Your Protest." The vote was 3 to 1 or better in favor of saloons. The dry Chicago Federation made no concerted campaign, relying on national prohibition.

The "wet" and "dry" question went on the ballot by order of the state supreme court which found that the "dry" petition had been kept off the ballot illegally at the preceding election.

Virtually all interest in the election was centered in the mayor-alty fight, also other city officials including aldermen from each of the 35 wards were elected.

The mayor made his campaign on his record in office and on pleas for Republican party support on the basis of national party lines. His principal opponents, Sweitzer, and Hoyne, the Independent, both severely criticized the mayor and referred to "Thompsonism" and his war record. The mayor's reference to Chicago as "the sixth German city," his refusal to issue an invitation as mayor to Marshal Joffre of France and his promise of police protection to a gathering of the People's Council for Democracy and Terms of Peace, all were urged against the mayor by his opponents.

The canvass for votes was one continuous noise-making campaign culminating tonight in the shouting throngs greeting the mayor's victory, as indicated by the police returns.

Democrats Elect. Late police returns showed the Democrats had elected Henry Stuckart city treasurer by 20,000 or more and James T. Igoe, city clerk, by about 8,000. The Republicans elected Herry A. Lewis, judge of the superior court by about 6,000 and George B. Holmes municipal judge by nearly 20,000.

A labor party was in the field for the first time with John Fitzpatrick, president of the Chicago Federation of Labor as mayoralty candidate, who finished in fourth place, trailing Hoyne, the Independent. Hoyne polled more than 100,000 votes which was less than half of that received by each of the two leading contenders. Fitzpatrick polled more than 50,000 out of 240,000 and issued a statement that "the labor party has established itself."

The other mayoralty candidates were John M. Collins, Socialist, who polled nearly as many votes as the Socialist candidates received four years ago. Last in the list was Adolph Carms, Socialist Labor, who received fewer than 2,000 votes.

Investigate Returns. Late tonight after no concession of victory from the Sweitzer headquarters had been issued, it was said, Sweitzer adherents were investigating the action of the mayor in ordering policemen to take the police returns to his office in the city hall before the result should be made known. The action, it was said by the mayor's advisers, was to prevent any manipulation of the figures.

The mayor in a statement attributed his success to the confidence of the voters in the Republican party.

The total vote on the ousting of saloons in May was:

No. Men	266,329
No. Women	124,731
Total	391,260
Yes, Men	67,707

Socialists Want Amendments To League of Nations

PARIS, April 1.—Lord Robert Cecil, the British authority on a league of nations today met a committee from the International Socialist conference recently held in Bern and received various amendments which the members of the committee desired to be included in the covenant of the league of nations.

Among the principal amendments that the Socialists proposed was the introduction of provision facilitating the entry into the league as soon as possible of Germany and Russia. Lord Robert replied that it was impossible to admit states without stable government. The commission proposed the supervision of disarmament to which Lord Robert replied by giving the reasons which had led the league of nations commission to reject a proposal for the continuous international inspection of armaments.

The commission also had proposals respecting the method of choosing delegates to league expressing the belief that nomination by the government would not be representative and preferring the elective system. Lord Robert explained that this question was for various states to decide themselves. Regarding war the committee thought that it should be totally abolished except where league itself made war to enforce its mandates. Other points presented were the belief that mandates should be defined in detail before territory was handed over to a mandatory government and that no mandates should be given until all nations had been admitted to the league.

Lord Robert said he believed that all mandates would be defined in special treaties. The committee expressed the desire that the league undertake distribution of raw materials would be concluded speedily.

Different Views Given on Franco-German Frontier

PARIS, April 1.—(By the Associated Press)—The Franco-German frontier, which is still the foremost subject before Premiers Lloyd George, Clemenceau and Orlando and President Wilson is being presented now from a new standpoint which offers some prospect of agreement.

The first plan was to give France control of the Saar fields so as to offset damage to the coal mines of northern France. France was not to have political control over the large German population in the Saar Valley which would remain with Germany. This proved objectionable and one of the chief causes of the council of four in action. The main objection was the divided control by which France would be unable to operate the mines effectively, prevent strikes and enforce authority when the Germans were exercising political control.

The new plan therefore seeks to combine French economic and political authority for a temporary period until the productive capacity of the mines in Northern France is restored, industrial production revived and the prostration due to the war ended.

It is estimated that five years will be required to restore the mines to normal and this probably gives an idea of the length of the proposed joint control by France. The fact that the control would be temporary would overcome the objection of annexation similar to the German annexation of Alsace and Lorraine in 1879.

The proposal was first advanced as concerning the Saar region only but is regarded now as equally applicable to the left bank of the Rhine as a possible basis of agreement.

BOLSHEVIK MINERS THREATEN TO STRIKE

ESSEN, Monday, March 31.—(By The Associated Press)—Delegates from the "revolutionary" miners, representing 105 mines, have voted here to begin a general strike April 1 until their demands are met.

The miners' demands include the immediate introduction of a four day at 25 per cent increase in wages; recognition of the council system; the immediate release of political prisoners; the immediate creation of a revolutionary workers' militia; the immediate dissolution of the existing volunteer corps; the arming of the police in the mining districts and payment by the nation for the days have been on strike.

The miners sent a message to the governing council at Budapest containing brotherly greetings and the declaration that they were inspired by the victory of their Hungarian comrades over "the accursed class" and adjuring them not to rest until they would fight shoulder to shoulder with their Hungarian and Russian brothers with all means in their power to compel the establishment of a Socialist soviet government.

The decision to strike spells almost certain stoppage of work since they are in the strong majority of the Ruhr district.

There was a coal reduction in January of 35 per cent below the October figures and a six hour day it is pointed out, would result in a further reduction of about one-third. With such a diminution in the coal supply Germany could only furnish sufficient coal for her own needs.

Announcement of other casualties will be sent by mail to the newspapers of the country.

WILSON APPEARS THE VICTOR OVER FLOYD THOMPSON

Quincy Man Has Lead of 1094 Votes from Early Returns

QUINCY, Ill., April 2.—With scattered precincts missing and majorities estimated in several counties by party chairmen, the judicial race in the fourth district has developed into a "horse race" between George H. Wilson of Quincy, Republican, and Floyd Thompson of Rock Island, Democrat. The totals at an early hour this morning computing majorities and unofficial returns were:

Wilson	13,135.
Thompson	12,041.

These totals include but 42 out of 68 precincts in Adams county and most of the missing precincts from the city of Quincy where an exciting mayoralty campaign and five questions of public policy brought out one of the largest votes ever cast in this city.

Tabulation of the vote extended into early morning hours. If Thompson can secure a lead of 100 votes in each of the sixteen missing precincts in Quincy he will be dangerous near to his rival, who on the face of early returns and the strong showing made in the country districts and normal Democratic counties appeared an easy winner. Eight precincts are still missing from Adams county and two of these, where the Soldiers' Home is located, are heavy Republican and expected to offset some of the strength shown by Thompson in the city proper.

Vote By Counties. Tabulation of the vote is as follows:

Adams	2,625	3,829
Brown	582	740
Cass	925	949
Fulton	500	75
Hancock	75	187
Henderson	651	903

BELIEVES PEACE TREATY WILL BE RATIFIED

WASHINGTON, April 1.—Senator Hitchcock, of Nebraska speaking tonight before the Washington commercial club expressed the belief that the proposed covenant of the league of nations would be amended as public opinion has demanded and together with the peace treaty would be ratified without change when submitted to the senate. The Nebraska senator urged the necessity of a prompt peace settlement in order to stop the spread of lawlessness in Europe.

"Any amendment adopted by the senate would have to go back for acceptance by the other thirteen nations and that would delay the peace settlement for a long time. Delays are said to be dangerous and in this case they are dangerous in the highest degree because at the present time the very life of civilization in Europe is at stake."

Senator Hitchcock said that among the changes he assumed would be made would be the inclusion of amendments giving a nation the right to withdraw from the league and specifically reserving the right of individual nations to control their own domestic affairs including immigration and making it clear that no decision of the executive council nor of the league would be binding on any nation except by unanimous vote and that no recommendations by the executive council for the renunciation of armaments does not become effective until each nation has approved them.

Release Meat Packing Industry from U.S. Control

WASHINGTON, April 1.—The meat packing industry which has been under federal license since October, 1917, was released today from food administration control by a proclamation signed by President Wilson in Paris. Under the proclamation all the persons, firms, corporations or associations engaged in importing, manufacturing, including packing, storing or distributing fresh, canned or cured beef, pork, mutton or lamb are released from license.

Stock yards which were placed under license in September, 1918, remain under the control of the agricultural department. Regulations under these licenses have no concern with prices and the administration had never exercised any control over the yards.

The president's action regarding the packers, officials said releases the industry from supervision of every kind exercised by the food administration including restrictions upon margins of profit.

These profits it was said were limited to 9 per cent on total annual business and about two per cent on the turnover on meats. The mandatory features of the Lever Act under the industry was controlled prohibiting unfair practices, hoarding and profiteering, remain in force but under the authority of federal courts.

Officials here said that the action probably was taken as the result of the recent discontinuance of the allied provision expansion commission and of allocation of meat purchases for allied account. The only control over food commodities left to the food administration is on cotton seed and seed products, sugar and wheat and its products. The enforcement division of the administration will be maintained for the purpose of imposing penalties while these commodities remain under license.

The withdrawal of profit margins on hard officials said probably will not apply to hard substitutes made from cotton seed or its products. The enforcement division of the administration will be maintained for the purpose of imposing penalties while these commodities remain under license.

RATHBUN PARDON CASE NEARS END

DES MOINES, Iowa, April 1.—James Kinding, former assistant state attorney general testifying late today in the Iowa house judiciary committee's investigation of the Rathbun pardon case emphatically denied that the law had been violated in connection with the revocation of the pardon. Previous witnesses have testified that the Iowa county grand jury which investigated the pardon had voted indictments against Rathbun's father and brother and his attorney, George Clark, but that these were not returned when Rathbun agreed to forfeit the pardon and go to prison for life for criminal assault.

Kinding maintained the indictments were of no value until they were actually returned in court and further declared he did not believe the evidence sufficient to convict persons named and asserted it was common practice to grant immunity to some persons in order to insure conviction of another.

When Representative Clark of Lynn county asked Kinding whether he believed a wrong had been done when Young Rathbun was permitted to go to the penitentiary for life while his attorney was allowed to go free, the witness replied:

"I know he had attacked this girl in a most outrageous manner. I know he attacked several other young girls who were ashamed to appear in court and tell their story. I knew he was guilty of larceny and that he belonged in the penitentiary and that's where we put him."

It was believed tonight that the investigation would be completed this week and that the recommendation of the committee would be presented by the house by next Monday.

SPEED UP THE PEACE MACHINERY IS WILSON'S PLEA

Points Out Delays Which Have Occurred Recently

PARIS, April 1.—(By the Associated Press)—What is construed as a warning that the world could not long countenance further delay in the adjustment of peace was delivered to the allied premiers and military representatives of the associated powers by President Wilson yesterday.

It is learned that at a late hour on Monday he arose during the conference, taking place in Premier Clemenceau's room at the French war office, and solemnly assured the conferees of his belief that they would do all in their power to bring together the loose ends in the debate in an effort to unite on peace terms upon which a treaty might be presented to Germany.

It is understood that the president pointed out frankly the delays that have occurred in the work of peace making. He declared that the world was awaiting the conclusion of the task of the conferees and had a right to expect early results. The president's appeal came at the close of a day when financial experts had been called before the president and the premiers. They had explained the different points of view that had arisen during the consideration of the question of reparation. Military experts likewise had been consulted at length regarding the disposition of the Saar Valley, the left bank of the Rhine, the problem of Danzig and other questions.

President Wilson today explained that he was willing to accept his share of responsibility for the peace conference delays. He was careful to point out that the slowness of the negotiations was not due to any single country or its representatives. He declared emphatically, however, that the time for talk was virtually finished and that now was the time to show results.

JAP MINISTER WARNS CHINESE GOVERNMENT

PEKIN, Thursday, March 27.—(By the Associated Press.)—The Japanese minister here has warned the Chinese government that if the premature disclosure of secret documents by China causes loss to Japanese financial and commercial interests Japan will hold China responsible for such loss. As the result the Chinese government has further postponed the contemplated publication of secret agreements between China and Japan.

American and British agreements with China which were not regarded as secret were published officially this week. Since their arrival in Paris the Chinese delegates have been urging the publication of all the secret agreements between China and Japan. The attitude of Japan has been one of opposition altho it was reported in a Reuters dispatch received in London on Feb. 12, from Tokyo that Baron Makino, head of the Japanese delegation in Paris had been instructed to disclose all unpublished treaties.

Official diplomatic information reaching Washington early in February indicated that Japan virtually had threatened war if China made public the secret treaties and failed to carry out an arrangement to make Japan the successor of Germany in rights, property and concessions in China. On March 15 treaties between China and Japan respecting railroad concessions in Manchuria and Northeastern China were published simultaneously in Peking and Tokio.

The state department of public
works will open bids for cement
today, as it is the intention to put
thru some of the road work by
federal aid, even tho the general
hard road building program is to
be delayed. These bids today
may shed some light on the in-
quiry the legislative committee is
conducting into the alleged high
prices asked by manufacturers
for the materials necessary for
road building.

OLD TIME VS. NEW.

Mendon, a town in Adams
county, is "a law unto itself." The
people there decided that since
the war is over, that there is no
need for the daylight saving plan
and so they declined to advance
the hands of their clocks last
Sunday morning. Railroad trains
pass thru Mendon on the new
time, but all other business in
Mendon is done on the old time.
Now that the war is over, prob-
ably no great attention will be
paid to the Mendon case, and if
the residents don't mind the an-
noyance of continually "figuring"
between the new and old time in
order to keep straight with the
outside world, it is nobody's busi-
ness in particular.

A GIFT FROM HEARST

The people of Menard county
must hereafter refer to William
Randolph Hearst with respect,
since the wealthy newspaper pub-
lisher has made possible the pres-

entation to the state of Illinois of
32 acres of land including the
site of Old Salem. The state is
to preserve and beautify the land
as a Lincoln memorial. Many
communities have felt the Hearst
beneficence, but somehow these
gifts do not change the general
attitude toward the Hearst pub-
lications. But after all, news-
papers are printed to be read,
and Mr. Hearst does have a way
of building up circulation. That
must be said to his credit, or
rather to the credit of the great
business machine that he has
built up thru passing years.

LIGHT IN ENGLAND.

Discussion of the British Gov-
ernment's policy with respect to
national shipyards was before
the House of Commons recently
and it was made known that the
yards will not be retained by the
State, but will be disposed of to
private interests on fair terms.
The other day Matthew Woll, as-
sistant to Samuel Gompers of the
American Federation of Labor,
told the Society of Industrial
Engineers that "organized labor
looks upon Government control
of railroads with disfavor." In-
cidentally he remarked that he
"viewed with alarm" the tend-
ency on the part of the Govern-
ment to merge the judiciary and
executive, as exemplified by in-
junctions. And he might well
have referred to the merging of
the legislative in the executive by
White House decree when the
Democrats were in the majority
in Congress. But that is a thing
of the past for the Republicans
are in control.

MORGAN COUNTY
LAND.

When we take a look at a gov-
ernment report on farm lands in
the U. S. there comes a new ap-
preciation of much of the land in
Morgan county. The figures
which the government has com-
piled show that the average value
of plow lands in the U. S. March 1
was \$68.35 per acre, which rep-
resents an increase of about \$5
per acre in the last three years.
There can be an appreciation of
these figures both because of the
much larger increase in values
during the three year period,
and from the knowledge that so
large a part of the lands of this
county are worth at least \$200
per acre. True, there is some
poor land in the county, but the
percentage of such lands is small.

SPRINGFIELD'S
LAWLESS WAY.

It has been a notorious fact in
Springfield that during the
months past there has been open
violation of the law against liquor
selling. More than one hundred
people there have government
licenses and liquor is sold so
openly that whisky and beer can
be obtained at most of the "soft
drink" establishments. Members
of the city police force visit these
places and fail to see that liquor
is being sold, altho it is poured
out in glasses in their presence
and they see men drink it.
Notwithstanding all this open
violation of law, the people yes-
terday expressed their confidence
in the members of the commis-
sion by returning them to office.
A law amounts to little unless it
has public sentiment behind it,
and judging from the results yes-
terday the wide open policy which
has prevailed in Springfield dur-
ing the period mentioned, is what
the people really want. It may be
the Springfield way to have this
flagrant law violation, but it is cer-
tainly a disgraceful condition in
a capital of a great state where
righteous laws are supposedly en-
forced.

THOMPSON WINS
IN CHICAGO.

About the heaviest vote ever

cast in a city election was record-
ed in Chicago yesterday, when
William Halp Thompson was re-
elected mayor. To people down
state his election was almost a
foregone conclusion, since a con-
test with several candidates in
the field always divides the force
of the opposition to the most for-
midable candidate, and everyone
would concede that the mayor,
with his city hall machine, was
the most formidable.

The case against Mr. Thomp-
son for unpatriotic conduct dur-
ing the war was made pretty
strong, but people outside of
Chicago have not had much in-
terest in the other charges made
against him. Still another thing
that aided Thompson, other than
the divided opposition to him,
was the bitterness of the news-
paper attacks against him.
Chicago papers do not seem to
be able to learn the lesson that
political attacks, after they pass a
certain mark of severity, in the
public mind become persecution,
and there is a reaction which aids
instead of defeats the candidate in
question. Many is the instance of
the public official, especially in
Chicago, who has drawn the life of
the newspapers to such an extent
that he finally has been accorded
the sympathy of the public and
their consequent support. The
majority of people believe in
fairness, even in political con-
tests, and they don't like to see a
man's every act and word distorted
in an effort to discredit him.
Indelicateness defeats its own
end.

THE BUNDLE

By ceaseless industry and thrift,
By management and care, I've
raised a bundle hard to lift, for
many bones are there. While
others had a bully time and made
the goblets clink, I labored for
the luscious dime and stored it in
the bank. Through burning days
and dismal nights I toiled with
weary tread, while other fellows
saw the sights and stained the
landscape red. So I detest the
whiskered pup who comes from
state saloons, to say we ought to
divvy up our store of picayunes.
We will attach a fancy name to
creeds he may parade, but it's the
same old holdup game the chieftains
have always played. The same old
hopes forever burn in lawless peo-
ple's souls, to gather coin they
do not earn, and swipe their
neighbors' rolls. So long as
there's a planet here, some men
will practice thrift, and other men
with thirst for beer, will talk and
loaf and drift. And while this
planet shall abide the bums will
always say, that thrifty fellows
should divide or give their way
away. I've pushed the plow and
plied the flail and groomed the
setting hen, and trimmed the
ree and split the rail to gain my
iron men. And wild eyed anar-
chists may roar, may threaten,
plead and whine, and thunder
loudly at the door, but what I
have is mine.

DISTRICT NURSES

HELD MEETING

Interesting Session Held of Nurses
of the Thirtieth District—
Good Attendance From Other
Cities.

A meeting of the Illinois State
Association of Graduate Nurses
of the 13th district was held here
yesterday with a large attendance
from cities in the district and
from the city.

The session first convened at
the Illinois School for the Blind,
where an interesting program was
given in the chapel by the classes
of the institution. This program
consisted of music, literary num-
bers and other work being done,
the program giving an idea of the
wide scope of instruction at the
school.

Following the program the as-
sociation held a business meeting
at which regular routine business
was transacted. The convention
then adjourned to the Peacock
luncheon where the members were
guests of Miss Dora B. Moore,
nurse at the School for the Blind.

Following the luncheon a num-
ber of interesting talks were made
by nurses recently returned from
army service. Miss Gunhild John-
son who recently returned from
overseas service told of her ex-
periences in the hospitals in the
war zone. Miss Johnson has the
gift of telling a story well and her
remarks were heard with great
interest and close attention.

Miss Lucy Mount who was at a
munition plant, Miss Guild who
was attached to the navy and Miss
Miller who was at an army can-
tonment, also told in an inter-
esting manner of their respect-
ive experiences. It developed that
all of them had more or less varied
experiences and that the life was
strenuous in the extreme.

Among the nurses present
from other places were: Mrs.
Ellis Braner, Concord; Miss Nelle
Rimby, Murrayville; Miss Eliza-
beth Reid, Waverly; Miss Clytie
Andrews, Miss Alice Wales, De-
catur; Miss Anna Titman, Miss
Alice Dally, Miss Mary Heitman,
Misses Bosworth, Scarlett, Maur-
er, Campbell, Springfield.

COMMUNITY COUNCIL
TO BE ORGANIZED

Mass Meeting to Be Held at State
Street Church Friday Evening
for Purpose of Effecting
Organization—Allen D. Albert
of Chicago to Be Speaker.

As previously announced, a
mass meeting is to be held at
State Street Presbyterian church
Friday evening, April 4, at eight
o'clock, at which time organiza-
tion of a local Community Coun-
cil will be perfected. The chief
speaker for the evening will be
Allen D. Albert of Chicago, and
he will have charge of the work
or organization. At this time the
nominating committee named at
a mass meeting held at Grace
church last Thursday evening
will make a report, and other
steps will be taken looking to-
ward a permanent organization.

Mr. Albert was heard in a fine
address here last December,
when he appeared before the Uni-
ted War Workers in their drive
in this county. He made an ex-
cellent impression at that time
and will be doubtless greeted by
a large audience Friday evening.

A dinner for returned soldiers,
sailors and war workers of the
city will precede the organization
meeting. Dinner will be served
at 6:30 p. m., and will be fol-
lowed by a community sing. All
soldiers, sailors and war workers
who have seen service either in
this country or abroad are invited
to attend and each may bring
a lady, either mother, wife or
friend.

SAYS FAREWELL

TO ROUTE PATRONS
Arthur Seymour, who has for
fifteen years been the faithful
carrier on route No. 1 out of Mur-
rayville, has recently been given
extensive changes in his route. He
thus leaves a number of long time
patrons. Mr. Seymour has ad-
dressed the following apprecia-
tion to these friends:

"I want to take this opportu-
nity to most heartily thank you
for kindnesses shown to me and
my family. You have often
lightened my journey by dragging
the roads and thus my way has
been easier in muddy weather
and cold dreary days have passed
more quickly. Then your kind
words have been a distinct help
and the good things to eat that
you have given me, the feed for
my horses and the gifts of sub-
stantial nature are all remembered.

"Now, my kind friends, I must
part from some of you and this
parting makes me sad, but I shall
be glad to accommodate and
serve you in any way possible
during the future days. It is not
my will but the will of Uncle Sam
which must be done. To those
who remain on my route and to
the new carrier I promise my
best service. So in leaving I want
to thank you one and all and to
wish for you the choicest blessings
of heaven."

THEDA BARA'S opinion of the
Dance Siren of the Ages

Most people consider Salome to be the incarnation of all
that is evil in womankind—the quintessence of vampirism.
Yet to me she was not a vampire at all. "I can see Salome as a
baleful, pale-green flower—the most exotic of any character
I have played. To me she was one whom the French would
call a "demi-vierge."

"In the other characters I have portrayed, especially the
so-called 'vampires,' I have always given something in order
to attain my ends in the play. But Salome throws flowers and
smiles for her favors—and nothing more. What she wanted
most in life was John the Baptist, and when she could not win
him she had the stern ascetic slain.

"Salome was a child of nature, reared in the most profligate
royal court of her age, and her maiden heart reached out
for the only good man she had ever met. Had John been less
the grim scourge of sinners and more the helper and healer—
had he prayed for her and no denounced her—this wild child
might have been saved for the good of her people. Instead she
brought the Baptist to his death and died herself under the
spiked shield of Roman soldiers.

"Hell hath no fury like a woman scorned—and that is my
conception of Salome."

JUSTICE.

Editor Journal:
I see in the Morning Journal
that the hard road on the Morton
road was going to be extended to
Hardin avenue and that not all
the cost would be assessed to the
adjoining property. There is no
more justice in taxing them one
dollar for what is no benefit to
them than there was in the in-
vasion of Belgium by Germany on
the plea that they needed that
road to reach France.

One side of this new road is the
home of a widow with a mortgage
on the place for over half of its
value. The side of her lot is
350 feet and it will take more
than her investment to pay her
half.

On the other side of the street
350 feet belongs to a school teach-
er who paid for her home with
money earned by teaching. She
has paid for the pavement in
front of her lot and now to make
those two women who can not af-
ford to own vehicles of any kind,
pay for this pavement for the
benefit of owners of automobiles,
so they can reach the hard road
(made by the state without cost
to any one in the city) would be
a disgrace to the city.

Rather than that let all who
own automobiles for pleasure pay
either five or ten dollars and build
that road ourselves, as we are the
ones benefited. Count me ten
dollars on that just way of doing.
A Flatt.

KANSAS CITY MARKETS

Kansas City Stock Yards, April 1.—The some weakness was evident in the fat cattle market early last week, trade in stock and feeding grades continued active at firm prices. The country is not localized but is general from all sections. Fewer thin cattle will come out of Texas this spring than for many years past, as that state has recovered from the severe drought of the past two years, and the early movement thus far has been intrastate showing that home demand will be supplied first. The movement to Kansas and Oklahoma pastures will not be under way until the middle of May. Missouri, Iowa, and Illinois took a good many 600 and 900 pound steers the past week for short feed and to turn on grass. A few special bunches of 800 to 1,050 pound feeding steers sold at \$16.00 to \$16.25. Most of the Western feeding steers sold at \$14.00 to \$15.25. A five carload bunch of Western Rocky Mountain steers sold today at \$15.50. Stockers are selling at \$10.50 to \$15.25. Those below \$13.50 are ordinary in quality. Stock calves are quoted at \$10.00 to \$14.25. Good whiteface grades are bringing a material premium over others. A good many 300 to 400 pound calves sold at \$11.50 to \$13.50. Stock cows and heifers are in active demand with no important change compared with a week ago. Quotations are \$7.50 to \$9.50. Stock hogs are selling freely at \$16.50 to \$18.00, weights 70 to 130 pounds. Last week 1,000 head sold in one bunch to an Iowa feeder at \$17.25. Feeders are anxious to get pigs before they take on a grass fill. Outside of a few bunches of thin lambs with good fleeces for immediate shearing at \$17.75 to \$18.75 trade in this division was quiet. This was due more to lack of offerings than to lack of demand.

The White Triangle A Symbol of Merit

It Marks Hudson Super-Six Excellence in Art and Engineering

Whether it is the woman of good taste and distinction or the man who must have flexibility, power, constant dependability—the wish is gratified in the Super-Six closed car.

The Super-Six has the mechanical excellence that 60,000 owners associate with the Hudson name. It has the aesthetic value of a work of art.

Beautiful in Line—Perfect in Action

The Super-Six is never heavy and sluggish in action, a fault with cars that have merely been fitted with enclosed bodies.

In acceleration it is livelier than the usual light open car. It has endurance beyond any motoring requirement. In performance it is without a peer.

Dominates Every Situation

There is no frontier for Super-Six closed cars. They are used for touring, in town and country, on boulevard and remote highway. Naturally, there are more Hudson closed cars than of any other fine make.

CALIFORNIA VETERANS
WELCOMED HOME

NEW YORK, April 1.—Fifteen hundred battle scarred veterans of the 363rd infantry who traveled more than six thousand miles from their homes in the far west states to fight in France and Belgium returned today on the transport Kentuckian.

Mayor James Rolph of San Francisco, accompanied by a committee from the Rocky Mountain Club and delegations of western citizens rode up to the harbor with the local mayor's welcoming committee to give the boys a loyal "western welcome."

Nearly half of the regiment is composed of replacements. A total of 1700 men was inscribed in the casualty list but some have since returned to the command. Seven hundred men paid the supreme sacrifice. The regiment, a part of the 91st division, made a wonderful record in the Meuse-Argonne offensive last September and October and the armistice found them chasing Huns out of Belgium. Three men in the regiment returned with the coveted congressional medal of honor; several others have the distinguished service cross and French war crosses.

The men entrained tonight for Camp Merritt, N. J., where they will go thru the "de-lousing" process.

Mayor Rolph declared that as soon as the entire regiment is home and has complied with the quarantine and sanitary arrangements it would be taken direct to San Francisco and entertained as guests of the city.

OUST KAISER'S PICTURE
OUT OF BERLIN SCHOOLS

BERLIN, Monday, March 31.—(By The Associated Press.)—All the Prussian district and local government school authorities have been notified by Herr Haensch, the minister of religion and education that pictures of former emperor William and the former crown prince may no longer be hung in the school rooms.

His order, Herr Haensch said, the government did not intend to be iconoclastic, but insisted that the schools not be used directly or indirectly for propaganda against new state regulations. Such propaganda he added is contained in the display of pictures and busts of the former emperor and his oldest son.

The Socialist Vorwaerts greets the order warmly and suggests that it be extended so that all likenesses of the former emperor be removed everywhere especially was there no technical differences involved.

The school directors of Berlin are up in arms over the incident.

ILLINOIS SUPREME
COURT CONVENES

SPRINGFIELD, Ill., April 1.—The Illinois supreme court today convened for the April term with Chief Justice Warren W. Duncan of Marion, presiding.

Among other cases under advisement is one testing the constitutionality of the act providing that private banks must incorporate as state banks by January 1, 1921, which law was approved by the people at the general election last November. It is alleged that the bill signed by the governor is not the same as the one passed by the general assembly owing to an error in enacting the bill.

The appeal of Edgar A. Strauss, former bank president of Peoria, who was convicted for the murder of Berne A. Mead, cashier of the bank, also is on the docket. Strauss was sentenced to twenty-five years in the state penitentiary at Joliet.

TAKE UP ITALY'S
FRONTIER QUESTION

PARIS, April 1.—Settlement of Italy's frontier question with that of France was discussed today by Premier Orlando at a conference with President Wilson just before the council of four convened to discuss the Italian frontier question.

The Italian Premier asked the president whether he did not think it advisable to have an informal exchange of views on the Italian problem especially as regards the Adriatic before it is presented to the council. The president replied that he shared this view, but owing to pressure of work had been unable to personally study the Italian question. However, he promised to do so. Premier Orlando's suggestion that a simultaneous settlement of the frontier questions involves a joint peace with Austria, a plan which is favored by the American delegation provided it does not cause too much delay. In this connection the American boundaries commission expects this week to conclude all boundaries including those of Austria, Bulgaria and Turkey.

BILL TO AMEND
ANTI-ALIEN LAW

REPORTED SIGNING OF
PEACE TREAT YUNTRUE

PARIS, April 1.—Somebody started a story this morning that Col. E. M. House had announced that the peace treaty had been signed. The report rapidly spread over all parts and the telephone wires to the American headquarters in the Hotel de Crillon became hot with inquiries as to the truth of the rumor. It did not take long, however, for inquiries to realize the character of the report when they were reminded that today was April 1.

HOG PRICES PASS
\$20.00 MARK

CHICAGO, April 1.—Hog prices passed the \$20.00 mark upward bound today when they were quoted at \$20.10 per hundred at the stock yards. The highest war time price was \$21.00 last fall. During the winter prices dropped slightly under \$18.00 but have been advancing since the government minimum price guarantee was taken off nearly a month ago. At the U. S. bureau of markets this recent advance was ascribed to heavy demand coupled with the fact that the winter run of hogs was largely shipped out during the winter, leaving the supply comparatively light until the new run of hogs begins in May or June.

Diamond Tires

You Wouldn't Hike in Dress Shoes

Suppose, for example, you had a lot of walking to do, day after day,—would you wear flimsy-soled dress shoes? Of course not—for you'd see to it that your shoes were the tough-soled, substantial, serviceable sort. The same holds with the "shoes" for your automobile. You want your car to keep going on one set of tires as long as possible.

Diamond Squeegee Tread Tires

**MRS. WOOD'S WILL
IS FILED FOR RECORD**ESTATE HAS ESTIMATED
VALUE OF \$100,000.Special Bequests Made to Rela-
tives and Friends—Passavant
Hospital, State Street Church,
and Kindergarten Remembered
—Bulk of Property in Resi-
duary Fund.The will of the late Mrs. Mary
E. Wood was filed for probate in
the office of County Clerk G. L.
Riggs Tuesday. By this documentwhich was drawn for Mrs. Wood
by J. Marshall Miller, attorney
the testatrix disposed of an estate
to the value of \$100,000. The will
was made April 24, 1913 with
Annie T. Loar, G. W. Morton and
J. Marshall Miller as witnesses to
the signature. A codicil making
some minor changes was drawn
June 18, 1918, with G. W. Mor-
ton, Annie T. Loar and Tillie
Jane Hairgrove as the witnesses.
Stuart Pierson of Carrollton is
named executor of the will and
also to serve as trustee with
reference to certain bequests.
State Street church, Passavant
Hospital, and the Free Kinder-
garten are among the benefi-
ciaries.Mrs. Wood's holdings include
240 acres of land, a portion of
which is located on the site of the
proposed new reservoir, resi-
dence property on South Main
street, government bonds and
other securities. The special be-
quests to relatives and friends
of Mrs. Wood total about \$15,-
000 to \$20,000 and the residue of
the estate is to be divided among
relatives in twentieth parts. On
the estimate of \$100,000 valua-
tion of the estate, one-twentieth
of the residue is worth about
\$1,000.**Some Special Bequests**The first item of the will pro-
vides for the payment of debts
and funeral expenses. Under the
second paragraph a number of
special bequests are made, in-
cluding articles of silverware or
jewelry to Vena Mary Tedford,
a niece; Mary Eldred and Margaret
Eldred, nieces; Elizabeth H.
Wood, Minnie Curry, Mary Beck-
man Ausmus, Delta Wood

Olive Street, St. Louis, Mo. Sold by
Druggists—Adv.The testatrix also left \$250 to
Mrs. Ina Waters to whom she
refers as her "kind and cheerful
companion." In making the be-
quest to Miss Finney the will re-
fers that Mrs. Wood esteems her
as "a faithful and worthy young
woman."It is provided that several
bequests enumerated above are
to lapse as to such persons as do
not survive, and such said be-
quests are to be regarded as a
part of the residuary estate.The third paragraph of the
will bequeaths \$1,000 to the trust-
ees of State Street Presbyterian
church and \$1,000 to the trustees
of Carrollton cemetery in trust.
To the proper officer of the Sal-
vator Army of Jacksonville,
\$1,000, to be used and expended
in improvements, repairs and
equipment of their barracks in
this city.Paragraph D of this section
bequeaths to Stuart E. Pierson as
trustee the sum of \$3,000 for the
benefit of Mrs. Mary E. Burke,
who is referred to as "my faithful
and devoted housekeeper and
helper of many years." This is to
be paid in quarterly installments
of \$100 each at the expiration of
each three months, after Mrs.
Wood's death, but in the event
that Mrs. Burke dies before the
payment to her of the specified
\$3,000 or any partial payment
thereof, the unpaid part shall
lapse and become a part of the
residuary estate.Mrs. Wood mentions in the will
that this bequest is given as a
token of her esteem for Mrs.
Burke, in addition to the annuity
provided for her in the will of
Mr. Wood.In the fourth paragraph of the
will Mrs. Wood charges that the
executors of the will of her hus-
band have exacted large compen-
sation for their services, notwith-
standing her late husband's ex-
pressed ideas. Furthermore,
she charged the executors with
unwisely and unnecessarily ex-
pensing large sums for attorneys'
fees in the administration of that
estate. She makes these state-
ments as reasons for her ex-
pressed opinion that the relatives
hereafter named are not entitled
to any liberal bounty on her part.With this explanation the will
provides bequests as follows:
To Iven Wood, brother of the
husband of the testatrix, if he
survives her, \$2,000; to Richard
S. Wood, brother of the husband
of the testatrix, if he survives
her, \$500; to Mrs. Julia A. Beck-
man, sister of the husband of
the testatrix, if she survives her,
\$2,000.The next paragraph goes on
to say that the testatrix realizes
that her personal belongings are
not of great value and she sug-
gests an early sale of these ef-
fects by the executor. Further
the executor is authorized to con-
vey and sell real estate.**Residue of Estate.**
The fifth section of the will
provides that after the real and
personal property has been con-
verted into money and securities
and the debts, legacies and be-
quests have been fully paid, then
the residue of the estate is to be
divided into twenty equal parts
and distributed as follows:
To Benjamin R. Eldred,
nephew, four twentieths; to Wil-
liam Eldred a brother, three-
twentieths; to two of the children
of Lucy Eldred Rice, a deceased
sister of the testatrix, who are
named: George Rice and Silas
Tribble, each two-twentieths.It is mentioned that Martha
Barnhart, the third child of the
said sister, has heretofore been
remembered in the will.
To the child or children of
Ward Eldred, deceased brother,
two twentieths of the residue.
To Stuart Eldred Pierson, as
trustee for the benefit of Elisha
Eldred, brother of the testatrix,
three twentieths, which shall be
invested in real estate securities
and the net income paid at least
annually to the said Elisha El-
dred during his lifetime. At the
death of Elisha Eldred the
amount of this is to be divided
into two equal parts, one half of
which is to be paid to the child or
children of Benjamin R. Eldred
and the other half to Charles El-
dred, son of Elisha Eldred.To Zeila Dunsford, niece of
the testatrix one-twentieth and to
Vena Mary Tedford, niece, one-
twentieth.To Charles Eldred, son of
Elisha Eldred and a nephew, of
the testatrix, one-twentieth.The remaining one-twentieth
is to be divided into eighths andis bequeathed as follows: One-
eighth to Julia Pierson, daugh-
ter of Stuart Pierson; one eighth
to Eldred Robertson, son of Etta
May Robertson, two-eighths to
the Free Kindergarten of Jack-
sonville; four-eighths to the trust-
ees of Passavant Hospital for
the equipment of a room which is
to be designated as the Mary El-
dred Wood memorial room.**Mr. Pierson Executor.**
As already indicated, Stuart E.
Pierson is named the executor of
the will and no bond is to be re-
quired of him as executor or as
trustee.In the codicil to the will of
Mrs. Wood it was stated that
since she had read and reflected
on the provisions of the will since
the death of "dear friend Iven
Wood, I now hereby revoke and
strike out items B and C of para-
graph 4 of my will, referring to
Richard S. Wood and Julia A.
Beckman. (In the paragraphs
referred to a bequest of \$500 had
been given to Richard Wood and
\$2,000 to Mrs. Beckman.)The second paragraph of the
codicil provides that \$500 shall
be given to Emlene Eldred, wife
of James Eldred, if she survives.
It is understood, however, that
Mrs. Eldred is now deceased.**PUBLIC SALE NEXT****THURSDAY APRIL 3RD****At farm of late D. M. APPRENTICE SEAMEN WANTED FOR NAVY

Recruiting Office Explains What This Branch of the Service Requires and Offers.

Apprentice Seaman.

"Men between the ages of 17 and 30 years are recruited for the seaman branch of the navy. Parents or guardians consent is absolutely necessary for those 17. Men 18 or over who do not have registration cards must have an age certificate, showing date and place of birth.

Upon enlistment the recruit is sent to the naval training station at Great Lakes, Illinois, where he receives training with small arms, signals, boat, first aid, deck duties, the knotting and splicing of ropes and hawsers and everything that helps to make him an able bodied seaman. The seaman who is a first class man is as essential to the workings of a Man O' War as the men of the machinists, electrical or other branches.

After completing his training the seaman is sent aboard a cruising vessel where he is assigned to a division and is stationed on one of the big guns. Here he has the opportunity to qualify as a gun captain or a gun pointer and if he makes good he will receive extra compensation for this.

The seaman has the same chance for advancement as the men of other branches and can be promoted to any one of the following ratings: Coxswain, boatswain mate, gutters mate, Signalmen, quartermaster, turret captains, etc. Each rating carrying with it a handsome salary.

The seaman is distinguished from men of other ratings by the white stripe worn around the right shoulder of his blouse.

An Apprentice seaman starts on a salary of \$32.60 per month, with free room and board and an ample clothing allowance. This is equal to a salary of about \$75 per month in civil life. A man can advance rapidly in the navy and has the chance of becoming a commissioned officer. Some of our greatest naval officers started in the navy as apprentice seamen.

When foreign ports are visited by ships, everyone has a chance to visit the surrounding country and the places of interest. While in the United States, men are allowed leave, and plenty of it is given to all.

We need a great many men for the seaman branch and you can be examined for enlistment by applying at the navy recruiting station, 222 1-2 South Fifth street, Springfield, Ill.

DRAMA AND SCHOOL.

The Devereux Players, who are to play an illinois woman's College, who are public benefactors, serving the double purpose of providing the students and the community as well with a bill of entertainment that is as replete with enjoyment as it is educational and stimulating to good taste and intrinsic intellectual merit.

The "legitimate" drama which has been largely displaced and driven from the stage by the many, varied, most ingenious but more meretricious forms and methods of amusement, is being preserved, most nearly in its pristine vigor and purity by players of the Devereux type in connection with the educational institutions of the land. The service thus performed to polite learning and correct standards of taste in preserving the unities of the drama and the demarkations distinct between the false and the sterling coin of wit, humor, pathos and of the entire gamut of notes in the human instrument on which it is the office of the drama to play and from which to strike responsive emotions cannot be sufficiently appreciated.

DEVEREUX PLAYERS ON THEIR ANNUAL TOUR.

The Devereux Players who will appear at the Illinois Woman's College, Jacksonville, in "Love and Geography" April 4th and 5th, 1919, who have enjoyed the unique distinction of having appeared at practically every leading college and university east of the Mississippi river.

Before the season closes they will have given performances at Columbia University, the University of Virginia, Tennessee, Texas, North Carolina, Mississippi, Miami University, The State College of Pennsylvania, practically every State Normal school and every school and college in the state of Virginia, North and South Carolina, Tennessee, Mississippi, Arkansas, Louisiana, Alabama, Kentucky, and Texas.

Altho the tour of the company this season has been for the most part in the south, Devereux Players are accustomed to performing in all the leading universities in the east. They have, in the past, played before the student bodies of Harvard University, Dartmouth College, Vassar College; in fact, practically all the colleges of importance. As a proof of the work done by the company, it has become a part of the summer session entertainment committee of Columbia University to have the Devereux Players appear there each year.

The Devereux Players plan to tour the western states in the fall, ending with an eight week's trip in California, Washington, and Oregon. Notwithstanding the magnitude of such a trip, the Devereux Players have at last yielded to the insistent demands of the Pacific coast colleges, and expect to repeat their eastern successes in equal measure in the west.

OBITUARY

Albert Edmond Hills, son of Leonard and Sarah McFarland Hills was born near Lynnville, Illinois and died at his home Friday March 28, 1919, aged 32 years, ten months and twenty-five days.

On July second 1905 Albert was united in marriage to Miss Katy Adilia Fearnough. To this union two children were borne, Blanch Lorena, aged thirteen and Harold Eugene aged three.

The community has lost a happy, kindhearted loving character and all feel deeply the loss, but the blow falls hardest on those nearest and dearest—the family, of whom there remain: His wife and two children, the mother and father, one brother, Adam L. Hills, now with the A. E. F., in France; one sister, Mrs. Oliver Dickenson of near Lynnville.

Albert will be much missed and his untimely departure leaves a sadness in our hearts for:

Of a home once bright and fair;

Sometimes it seems hard to say
Thy will, not ours be done,
Though we each are traveling day by day
Toward the sinking sun.

A happier home, no one could find
Than the one now bowed in grief,
But every cloud is silver lined,
For thru death God sends relief.

How sweet was that father and

Sweeter still since he's gone to rest.

PEORIA WOMAN HAS GAINED 30 POUNDS

Mrs. Doll Davis Says She Feels Like a Different Woman Since Taking Tanlac.

"Since taking Tanlac I have gained thirty pounds and never felt better in my life," said Mrs. Doll Davis who lives at 103 Samuel Ave., Peoria, the other day.

"I don't believe I could possibly find words to tell you how I have suffered during the last seven years," continued Mrs. Davis, "and when I began taking Tanlac a short time ago, I had about come to the conclusion that I would never be well again. All my trouble was caused by the terrible condition of my stomach. For two or three hours after meals my food would lie in my stomach undigested and cause me a world of suffering. My food didn't seem to nourish me at all, and I just got weaker all the time. My nerves were also in awful condition, and for the past year I was not able to sleep very much. Many nights I would awaken from a nervous, throbbing headache all night long, and not sleep a bit. Every morning I would just have to drag myself out of bed, and if I over-exerted myself the least bit during the day I would have to go back to bed. My kidneys gave me lots of trouble, too, and I had slight attacks of uric acid. I finally got so weak from loss of weight and strength that I was hardly able to get around at all."

"I was in this awful condition when I commenced taking Tanlac, but it wasn't very long before things began to change. My appetite came back and I was soon eating just as well as I wanted without suffering afterwards. I have just finished my fifth bottle and I can truthfully say that I never had better health in my life. It is simply fine to be able to sit down and eat just anything that my appetite calls for after suffering as long as I did. My nerves are in fine condition now and I sleep like a baby every night, and all my neighbors are asking me the same question, 'what in the world have you been taking to cause this improvement in your health?' And it just does my heart good to tell them that Tanlac is entirely responsible for it. It is wonderful the way I have gained in weight, and I feel like a different person altogether. I am more than glad to recommend Tanlac to everybody."

Tanlac is sold in Jacksonville by Coover & Shreve. (adv.)

JERRY V. HARRIS DIES FROM BURNS

Chapin Boy Died Tuesday Morning—Coroner Rose Held Inquest.

Jerry V. Harris, three year old Chapin boy who was burned Monday died at Our Savior's hospital at 11:30 o'clock Tuesday morning.

The child was burned by setting himself on fire with matches while his mother was temporarily absent from the house. He was brought here and attended by Dr. J. W. Haigrove who gave but little hope for recovery.

The remains were removed to the undertaking parlors of J. H. O'Donnell and Coroner Rose notified. He empanelled the following jury: John Hodgson, foreman; W. H. DeShara, clerk; Lee Stice, A. S. Baldwin, Charles DeSilva and J. R. Watt.

The jury met at the O'Donnell parlors Tuesday afternoon and heard the testimony of the child's parents and of Dr. Haigrove. The mother in her testimony said the child had always shown a tendency to play with fire but had never been in danger before.

Dr. Haigrove testified as to the nature of the child's burns. Dr. Haigrove said he had seen people burned worse than the Harris child recover, and also had seen patients with less severe burns who had died. The testimony of the child's father did not throw any light on the matter as he was not present at the time.

After hearing the testimony the jury returned a verdict that death resulted by being accidentally burned while playing with fire.

LARGE INTEREST IN FRIDAY MEETING

Community Council Plan One Which Appeals to all Interested In Maintaining the War Time Get Together Spirit.

On Friday night, at 8 o'clock in the State Street Presbyterian church, Jacksonville will show its progressiveness by taking the lead in a new state-wide movement which has for its slogan "Community Councils for Illinois."

Every organized group of people in the city, whether of men or women—has been asked to take part, and it is expected that not one will fail to be represented at this meet. All men and women not connected with any organization but who have the good of the community at heart are urged to attend.

This meeting has come about in this fashion. The war having stirred up more initiative than even its needs could absorb, some thousands or more able citizens from every section of the state, Jacksonville included, came together early in March to decide how to secure for their communities the same sort of cooperation in peace time that was so strikingly achieved during the war.

In Other States.

Many other states have been considering the same problem, and have found a solution in the establishment of community councils—North Carolina, Massachusetts and California working out specially fine plans now being put into execution.

Illinois decided to follow their example, and at this state-wide conference, a temporary state organization committee was elected under the title of "Community Councils of Illinois" to further the organization of such council throughout the state. The personnel of this committee is as follows:

Mr. Charles W. Folds, Chicago, chairman; Mrs. Joseph T. Bowen, Chicago, vice chairman; Mr. B. F. Harris, Champaign, treasurer; Mrs. Frank Funk, Bloomington, secretary; Judge Wm. H. Hart, Benton; Mr. R. E. Hieronymous, Urbana; Hon. Geo. A. Cooke, Cairo; Mr. Duncan McDonald, Springfield; Miss Margaret Lansden, Cairo; Mrs. A. L. Adams Jacksonville; Mrs. Stuart Brown, Springfield; Mrs. Ira Couch Wood, Chicago; Mrs. John McEniry, Moline; Mrs. James B. Riggs, Quincy; Cyrus Hall McCormick, Chicago.

Mr. Allen D. Albert who covered the United States for the commission on training-camp activities during the war, waking up communities to their responsibility to the soldier and sailor, being received by immense audiences, has been secured by the new organization to visit the principal cities in Illinois to explain the method of forming community councils, their big usefulness to the community, and some of the things they may most readily do on organization.

To Organize for Peace

Jacksonville has arranged to have Mr. Albert speak Friday night, that the city may be one of the first Illinois towns to organize for peace. Mr. Albert has a national reputation as a speaker and is worth going many miles to hear.

Immediately following the meeting, a reception will be given to Jacksonville's returned soldiers and sailors and the entire evening promises to be one worth remembering.

The chairman of the State Organization Committee, Chas. W. Folds, is also chairman of the Liberty Loan for Chicago and Cook county, president of the United Charities, president of the Union League Club, head of a hospital for crippled children, and known through the state for his big public spirit. Asked to explain a community council, he said: "A community council is like the old New England town meeting, a coming-together of all the people in a community to talk over, consider and act upon all matters for the community good."

"There has to be some form of organization, of course, and this is usually achieved by calling together the heads of every organization in town, resolving them into an Advisory Committee, and thereafter, at a mass meeting in which every man and woman in the community has a voice, electing a good working Executive Committee and officers by popular vote."

Many Lines of Activity.

"What's the job of a Community Council?" Mr. Folds smiled broadly. "Why don't you say, 'What isn't the job of a Community Council?' for that's an easier question to answer. It gets busy about whatever its community wants or needs, from an intelligent 'Back to the School' drive which sees that boys and girls who need more school get it, to a prompt handling of the employment question in relation to the returned soldier, the clearing up of an unsanitary district, the employment of a community nurse."

"With the heads of every organization in town meeting each other regularly, there is opened up a wonderful field of usefulness impossible under the system which now prevails of every organization working in its own little field without point of contact with the community at large. It is merely following out the lesson we learned in war—that we have to get everybody together if we want to accomplish anything at all, and that's how we put over the Liberty Loan, the War Savings Stamps Drive, the Registration of men for the Draft, and the feeding, clothing and financing of our own boys and the armies of our allies."

FIRST AND LAST

OBERMEYER'S DRUG STOCK IS SOLD

Lulu-Davis Company is Purchaser and Will Operate Two Stores.

The Lulu-Davis Drug Co. has completed the purchase of the drug stock of the J. A. Obermeyer store and entered into possession Tuesday. The deal has been pending for a number of weeks between the members of the Lulu-Davis Co., F. E. Farrell as administrator of the Obermeyer estate, and Harry Obermeyer.

The Lulu-Davis Co. will for the present continue to operate their store on the north side of the square in addition to the south side store. Business on the south side will be inaugurated with a triangle sale beginning Thursday. By this plan when a customer buys two articles of a certain kind a third one will be given by the store management. The Lulu-Davis Co. has been in business in Jacksonville for several years and enjoys the confidence and good will of the public.

The books, stationery and other goods other than drugs handled by J. A. Obermeyer & Son, have been removed by Harry Obermeyer to the Hayden building on South Sandy street. This store will soon be opened for business.

DINNER FOR RETURNING SOLDIERS AND SAILORS

Jacksonville soldiers, sailors or war workers, who have served either at home or abroad in the army service, are cordially invited to a dinner to be given under the auspices of the Community Council at State Street Presbyterian church Friday evening, April 4, at 6:30 o'clock. Each soldier who attends is privileged to bring one lady, either wife, mother or friend. A community sing will follow the dinner and to this the public is invited. The service flags of the churches and various organizations will be used in the decorations for this occasion.

The committee in charge earnestly requests that reservations for the dinner be made today if possible, preferably this morning. A place will be reserved for every soldier, sailor or war worker who will telephone Illinois phone 1203.

Attend our opening, and mid-summer display of new millinery, Thursday, April 3rd.

A LIBERAL CHURCH IN CHAMPAIGN

The great Centenary effort of the Methodist church has already been explained in the Journal and some churches are getting to work on their apportionment. J. C. Nate, formerly pastor of Grace church, this city, is now district superintendent of the Champaign-Danville district and sent Dr. Fletcher of this city the following regarding the First Methodist church in Champaign. He later sent a letter stating his feelings regarding the matter and they were indeed buoyant.

First Methodist Episcopal Church, Champaign, over the top for Centenary with seventy-seven thousand dollars, being full quota all boards for five years and fourteen thousand surplus to date and Sunday school contribution to follow. Leadership of Dr. Herbert A. Keck, pastor, has been superb with complete cooperation of officers, church council, unit leaders, minute men, campaign committee and people. Largest gift was five thousand. A spontaneous and happy effort of entire congregation and worthy victory of a great church.

Joseph C. Nate, District Superintendent.

HEARING ON LIBRARY BILL

Miss Lydia Barrette, public librarian, left last night for Springfield, where she will attend a committee meeting this morning relating to the proposed county library bill which will come up for hearing before the judiciary committee some time today. The bill now under consideration was introduced into the general assembly last November, but at that time met with opposition from the educational committee in the house. It is hoped that the bill as it now stands will meet with approval of the senate and house. It is understood that practically all the librarians of the state are in favor of this measure.
